The group prepares their own meals in the communal kitchens, or may request meal service. The group is responsible to secure a rental vehicle (4x4 required) in order to get around to beaches, waterfalls and tours. Your hosts will assist you to schedule your tours and activities.

Farm of Life is not recommended for persons who have trouble going up and down hills. Our rooms are not handicap accessible (although we are working on it), and the campus has hills. We also don't recommend persons with nut allergies, since nuts are in our kitchen for raw food preparation.

If you are interested in a group rental with us, then please submit a Reservation Request (www.farmoflifecr.com) and indicate in the comments field that you are a group rental.
